I like science fiction flicks. Anything that has something to do with space travel, viruses, futuristic weapons and the likes. My favorite would be the Matrix trilogy.

We're big on action movies in this house, and recently went to see the latest "Die Hard" movie. It was great.

300 has to be the best movie that I have seen cause it is about how a few people can over move many people and what is important in life and how strong people can not be bought .

My favorite of all time was Saving Private Ryan and after than Lord of the Rings. LOTR was a great classic. Although they left out some parts that I liked, the whole series I thought, was done pretty well. I wish they would make the simarillion, but I doubt its gonna happen.

I enjoy a wide variety of films. I like Comedy, Sci-Fi, Drama, Action, Fantasy, Spy Genre, Thrillers etc. I liked pretty much all of the Star Wars films, some of the Star Trek (I kind of subscribe to the even numbered movies are better school of thought there!) Lord of the Rings was a great film trilogy. If any one saw Eragon I would like to hear your opinion of that movie. I thought it was well done!

I agree, the last Die Hard movie was very good with some excellent stunts in it.

My favourite movies are ones like Jaws, The Shawshank Redemption, The Way We Were, The Green Mile, The Sound of Music and Young Frankenstein.

You know I've wanted to watch this movie for a long time, but have been putting it off. I've heard good reviews, think I might finally go and check it out.
