Hi

Well this is the first post on this new site, I hope more people will be attracted to it, so we can build a great reiki community here, where we can share our views, healing, create friendships and even share videos.

One of the positive things about reiki is its simplicity, if you are feeling stressed at work, on the bus or train you can use it to help yourself.

It can also be used to help animals, and if you are initiated into reiki two you can also do absent healing, which can be very helpfull in many situations

Can it be used just about anywhere, or would you need to be in a place where you will not be bothered. I would like a little more information to help me understand it better.

You can use reiki anywhere such plane, train, bus, office, bar. So if you are feeling ill, stressed, upset or vulnerable just give yourself some reiki.

This can be very powerful because we are promoting and giving ourselves the signal that we caring, excepting and ultimately empowering ourselves... and that's cool

I have only recently become aware of Reiki healing. I have only done a little research at this point, so I am not very familiar with it, but what I have read thus far I find very interesting. I plan to do more study of it, to see if it might be useful in helping with my back problems.
